

# GPSR Safety Certificate

Product name: Leather jumping gaiters (set of 2)

Artikelnummer: SR10209

## **Intended use:**

The jumping boots are used to protect the horse's legs from impacts, impacts and injuries during show jumping or intensive training work. They particularly protect tendons, pasterns and cannon bone areas from external influences and support the stability of the limbs. The product is intended exclusively for intended use on horses and may not be used as a fixation, bandage or permanent covering. Application on open wounds, skin injuries or irritated skin areas is not permitted.

## **Material information:**

High quality genuine leather - a natural, durable and breathable material. It is characterized by high tear resistance and dimensional stability. Since this is a natural product, slight color and structure variations may occur. The leather is free of harmful substances and comes from responsible production.

## **Security rating:**

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

## **Warnings:**

- Use only for its intended purpose as leg protection during show jumping or training.
- Do not use on open wounds, skin injuries or irritated skin areas.
- Before each use, check for damage, tears, loose seams, worn upholstery or broken fasteners.
- If the gaiters are damaged or severely worn, they must not be used.
- Check the fit regularly to avoid pressure points, chafing or circulation problems.
- Do not put it on too tightly – sufficient freedom of movement for the limbs must be ensured.
- Clean after each use and allow to dry completely to avoid skin irritation or material damage.
- Do not make any unauthorized changes or repairs to the product.
- Do not store or dry near open flames, heat sources or chemical substances.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.

**Disposal information:**

The product is made of genuine leather and metal components. Real leather is a natural material and can be disposed of with household waste if there is no municipal collection for leather scraps. If possible, metal parts should be separated and recycled as scrap metal before disposal. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.

**Manufacturer/responsible economic operator:**
