

# GPSR Safety Certificate

Product name: Fleece sweat blanket "Wellington"

Artikelnummer: SR10204

## **Intended use:**

The sweat rug is used to remove moisture and regulate the horse's temperature after riding, training or washing. It supports controlled sweating, prevents drafts and protects against cooling down. The blanket is intended exclusively for use on horses and must not be used as an underblanket or unsupervised permanent cover.

## **Material information:**

The sweat blanket is made of fleece (polyester fiber) with a weight of 280 g/m<sup>2</sup>. The material is breathable, moisture-wicking and allows for even heat exchange. The fibers used are of synthetic origin and contain no animal ingredients.

## **Security rating:**

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

## **Warnings:**

- Only use as a horse blanket for its intended purpose.
- Before each use, check for damage (e.g. tears, defective seams, damaged fasteners, loose straps or eyelets).
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure or chafing.
- Do not use on open wounds or skin injuries on the horse.
- Do not use chemical cleaners or bleach - only clean according to the care label.
- After washing, allow blanket to dry completely before reuse or storage.
- Do not dry or store near open flames, heat sources or electrical devices.
- Do not use as an underlay if it is not intended for this purpose.
- Replace damaged or deformed fastening parts (e.g. carabiners, buckles) immediately.

## **Disposal information:**

The product is made of fleece (polyester fiber) and is not biodegradable. The sweat blanket can be disposed of with normal household waste if there is no municipal collection for

textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Separate and recycle packaging materials in accordance with local disposal regulations.
