

# GPSR Safety Certificate

Product name: 3in1 cooling blanket for horses "Cool Down".

Artikelnummer: SR10180

## **Intended use:**

The cooling blanket with neck section and cloth is used to cool down and regenerate the horse after physical exertion or at high temperatures. It supports temperature regulation and helps prevent muscle tension. The blanket is intended exclusively for intended use on horses and may only be used for short periods of time in accordance with the instructions for use. It must not be used as a conventional horse blanket, transport or pasture blanket.

## **Material information:**

The product is made of Lycra. Lycra is an elastic, synthetic material made from polyurethane fibers (elastane) that is characterized by high stretchability, dimensional stability and breathability. It offers a snug fit, is moisture-regulating and allows good air circulation. The material is easy to care for, durable and free of animal ingredients.

## **Security rating:**

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

## **Warnings:**

- Only use as intended as a cooling blanket for short-term use after exercise or in warm weather.
- The blanket may only be used in accordance with the instructions for use.
- Do not leave it on the horse permanently.
- Do not use in cold weather or on severely chilled horses.
- Do not use on open wounds, skin injuries or irritated skin areas.
- Before each use, check for damage, loose seams or tears.
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure or chafing.
- Do not make any unauthorized changes or repairs to the product.
- After use, allow to dry completely and clean according to the care label.
- Do not use chemical cleaners, bleach or solvents.
- Do not store or dry near open flames, heat sources or chemical substances.

**Disposal information:**

The product is made of Lycra (spandex), a synthetic material that is not biodegradable. The blanket can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
