

GPSR Safety Certificate

Product name: Ascot breastplate with martingale can be used as 3-point and 5-point

Artikelnummer: SR10185

Intended use:

The breastplate serves to stabilize the saddle position and prevents the saddle from slipping back when riding or jumping. It attaches to the saddle and the horse and ensures a secure fit without restricting the horse's freedom of movement. The product is intended exclusively for intended use on horses and may not be used as a tethering, holding or securing device.

Material information:

High quality genuine leather - a natural, durable and breathable material. It is characterized by high tear resistance and dimensional stability. Since this is a natural product, slight color and structure variations may occur. The leather is free of harmful substances and comes from responsible production.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as an auxiliary strap to stabilize the saddle position.
- Before each use, check for damage, tears, loose seams, defective buckles, elastics or metal parts.
- If the breastplate is damaged or heavily worn, it may not be used.
- Check the fit and fit regularly to avoid pressure points or chafing.
- Don't wear it too tightly - there must be sufficient freedom of movement in the shoulder and chest area.
- Replace defective metal parts or elastic inserts immediately.
- Do not carry out any unauthorized repairs or modifications.
- Clean and care for leather parts regularly to avoid drying out and material breakage.
- Allow wet leather to dry slowly at room temperature - not on radiators or in direct sunlight.
- Do not store near open flames, heat sources or chemical substances.

- Do not leave the horse unattended, especially during transport, in the pasture or in the box.

Disposal information:

The product is made of genuine leather and metal components. Do not dispose of in household waste or the environment. Real leather is a natural material and can be disposed of with household waste if there is no municipal collection for leather scraps. If possible, metal parts should be separated and recycled as scrap metal before disposal. Do not burn product residues and do not allow them to enter waterways or the ground.
