

GPSR Safety Certificate

Product name: Safety rubber reins with magnet "NoPanic"

Artikelnummer: SR10221

Intended use:

The reins serve as a connection between the bridle and the rider's hand and enable targeted influence and communication with the horse while riding. They are intended exclusively for intended use on horses in combination with a bridle or bridle. The reins must not be used as a guiding, tethering or securing device.

Material information:

The product is made of genuine leather and rubber. Genuine leather is a natural, durable and breathable material with high tear resistance and shape retention. Since this is a natural product, slight color and structure variations may occur. The leather is free of harmful substances and comes from responsible production. The rubber content ensures elasticity, grip and improved handling.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a connection between the bridle and the rider's hand.
- Before each use, check for material fatigue, tears, loose seams, damaged fittings or broken parts.
- If the reins are damaged or heavily worn, they must not be used.
- Do not carry out any unauthorized repairs or modifications (e.g. sewing, gluing, shortening).
- Check fit and fastening regularly to avoid accidental loosening.
- Do not put too much strain on it or pull it jerkily – risk of breakage or injury to horse and rider.
- Do not use as a lead rope, halter replacement or tethering device.
- Allow wet leather to dry slowly at room temperature - not on radiators or in direct sunlight.

- Only use suitable care products for leather or synthetic materials; no solvents or harsh cleaners.
- Do not store near open flames or heat sources.
- Before each use, check the product for a secure fit on the bridle.

Disposal information:

The product is made of genuine leather and metal components. Do not dispose of in household waste or the environment. Real leather is a natural material and can be disposed of with household waste if there is no municipal collection for leather scraps. If possible, metal parts should be separated and recycled as scrap metal before disposal. Do not burn product residues and do not allow them to enter waterways or the ground.

Manufacturer/responsible economic operator:

SUNRIDE GmbH

Marktplatz 12, 96242 Sonnefeld, Germany
