

GPSR Safety Certificate

Product Name: Box Door Head Guard

Artikelnummer: SR10217

Intended use:

The head protection for box doors is used to protect the horse's head from impacts, abrasions or injuries on sharp edges and hard surfaces in the area of the box door. It is attached to the top edge or contact points of the box door to minimize the risk of injury when leaning out or bumping into something. The product is intended exclusively for intended use in horse boxes and may not be used as a play or training accessory, holder or fixation.

Material information:

The product is made of polyester. Polyester is a synthetic material with high tear resistance, dimensional stability and durability. It is easy to care for, insensitive to moisture, durable and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for the intended purpose as upholstery protection on box doors.
- Before each use, check for a tight fit, secure attachment and damage.
- If the head protection is damaged, cracked, loose seams or material is fatigued, it must not be used.
- Check regularly whether the product is securely attached to the box door and there is no danger of it falling or slipping.
- Do not make any unauthorized changes, cuts or repairs to the product.
- Do not leave unattended within the reach of horses if there is a risk of the product being nibbled or swallowed.
- Do not store or use near open flames, heat sources or chemical substances.
- Clean only according to care instructions - do not use chemical cleaners, solvents or bleach.
- After cleaning, allow to dry completely before reusing or attaching the product.

Disposal information:

The product is made of polyester and is not biodegradable. The stirrup protectors can be disposed of with household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
