

GPSR Safety Certificate

Product name: Fleece bandages "Wellington" (set of 2)

Artikelnummer: SR10214

Intended use:

The bandages are used to protect, stabilize and support the horse's legs during training, transport or rest. They help promote blood circulation, prevent swelling and keep the muscles warm. The product is intended exclusively for intended use on horses and must not be used as a restraint, bandage or external protective cover for injuries.

Material information:

The product is made of fleece (polyester fiber). Fleece is a synthetic textile material with good thermal insulation and moisture wicking properties. It is light, breathable, keeps its shape and dries quickly. The material is easy to care for, durable and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a protective and supporting bandage on the horse's leg.
- Before each use, check for damage, loose stitching, tears, or excessive wear.
- If there is damage or material fatigue, the bandages must not be used any further.
- Do not apply bandages too tightly to avoid circulation problems, pressure points or chafing.
- Check fit and fit regularly.
- Use only on clean, dry horse skin.
- Allow to dry thoroughly after use and clean regularly to prevent mold or bacterial growth.
- Do not use chemical cleaning agents, bleach or fabric softeners as these can damage the material.
- Do not store or dry near open flames, heat sources or chemical substances.
- Do not alter, shorten or repair the product yourself.

Disposal information:

The product is made of fleece (polyester fiber) and is not biodegradable. The materials can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
