

GPSR Safety Certificate

Product name: 2in1 leather saddle girth with fur "SohoFlex"

Artikelnummer: SR10251

Intended use:

The product is intended for its intended use in equestrian sports. Please always check the suitability for the individual horse before use.

Material information:

The product is made of genuine leather and faux fur (synthetic fibers). Real leather is a natural, breathable material with high tear resistance and shape retention. Since this is a natural product, slight color and structure variations may occur. The faux fur is made of synthetic fibers and is used for padding and pressure distribution. Both materials are free of harmful substances and suitable for their intended use on horses.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a saddle girth to attach the saddle to the horse.
- Before each use, check for damage, tears, material fatigue, loose seams or defective buckles.
- If there is visible damage or excessive wear, the saddle girth must not be used.
- Check the fit and fit regularly to avoid pressure points or chafing.
- Do not tighten too tightly - sufficient freedom of movement of the chest must be ensured.
- Clean and care for leather regularly to prevent it from drying out and breaking.
- Only use suitable leather care products; Do not use aggressive cleaning agents, oils or solvents.
- Allow wet leather to dry slowly at room temperature - not on radiators or in direct sunlight.
- Do not store near open flames or sources of strong heat.
- Do not modify or repair the product yourself (e.g. rivets, holes, seams).
- Replace damaged or deformed metal parts (e.g. buckles, eyelets, rings) immediately.

Disposal information:

The product is made of genuine leather, faux fur (synthetic fibers) and metal components. Do not dispose of in household waste or the environment.

Real leather is a natural material and can be disposed of with household waste if there is no municipal collection for leather scraps. The faux fur is made of synthetic fibers and is not biodegradable; it can also be disposed of with residual waste. If possible, metal parts should be separated and recycled as scrap metal before disposal. Do not burn product residues and do not allow them to enter waterways or the ground.
