

GPSR Safety Certificate

Product Name: Box Curtain

Artikelnummer: SR10218

Intended use:

The box curtain is used to protect the horse in the box from drafts, direct sunlight and external stimuli. It ensures a quieter environment and contributes to the horse's well-being, especially at competitions or in open stable corridors. The product is intended exclusively for its intended use as a cover in the entrance area of a horse box and may not be used as a partition, fixation, suspension or cover for other objects.

Material information:

The product is made of polyester. Polyester is a synthetic material with high tear resistance, dimensional stability and durability. It is easy to care for, insensitive to moisture, durable and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for the intended purpose as privacy and wind protection on horse boxes.
- Before each use, check for damage, loose seams, tears or defective fasteners.
- If the box curtain is damaged or heavily worn, it must not be used.
- The stall curtain must be attached in such a way that there is no risk of the horse becoming snagged or entangled.
- Do not leave unattended within reach of horses if there is a risk of the material being nibbled or swallowed.
- Do not make any unauthorized changes, cuts or repairs to the product.
- Do not store or use near open flames, heat sources or chemical substances.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before reusing or attaching the product.

Disposal information:

The product is made of polyester and is not biodegradable. The stirrup protectors can be disposed of with household waste if there is no municipal collection for textile waste. Mate-

rial separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
