

# GPSR Safety Certificate

Product name: Bandage pads with Velcro made of terry cloth (set of 2)

Item number: SR10105

## **Intended use:**

The product is intended for its intended use in equestrian sports. Please always check the suitability for the individual horse before use.

## **Material information:**

The bandaging pads are made of terry cloth material (cotton or cotton blend). The material is soft, absorbent and serves to evenly distribute pressure under bandages. The textile fibers used are of natural origin and contain no animal ingredients.

## **Security rating:**

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

## **Warnings:**

- Only use for its intended purpose as a base under bandages on the horse's leg.
- Before each use, check for damage (e.g. tears, loose seams, deformation or heavy soiling).
- If there is damage or material fatigue, the bandaging pads must not be used any further.
- Check the fit and fit regularly to avoid pressure or chafing.
- Do not bandage too tightly - circulation problems or pressure points can occur.
- Use only on clean, dry horse skin.
- Allow to dry thoroughly after use and clean regularly to prevent mold or bacterial growth.
- Do not use chemical cleaning agents, bleach or fabric softeners - damage to the material is possible.
- Do not store or dry near open flames or heat sources.
- Do not change or shorten the product yourself.
- Do not use on open wounds.

## **Disposal information:**

The product is made of terry material (cotton or cotton blend). The materials are not biodegradable if they contain synthetic fibers. Bandaging pads can be disposed of with household waste if there is no municipal collection for textile waste. Material separation in the private sector is not necessary. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local regulations.
