

GPSR Safety Certificate

Product name: Fleece underblanket (ticking)

Item number: SR10277

Intended use:

The fleece ticking serves as an additional, warming intermediate layer under a horse blanket. It supports temperature regulation and ensures a pleasant body climate for the horse in cool weather. The product may only be used in combination with a suitable outdoor or stable blanket. It is intended exclusively for intended use on horses and may not be used as a sole blanket, sweat rug or fixation device.

Material information:

The product is made of fleece (polyester fiber). Fleece is a synthetic material with good thermal insulation and moisture wicking properties. It is light, breathable, keeps its shape and dries quickly. The material is easy to care for, durable and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a warming underblanket under a horse blanket.
- The blanket may only be used in combination with a suitable outdoor or stable blanket.
- Do not use directly on open wounds, skin injuries or severely irritated skin areas.
- Before each use, check for damage, loose seams, tears or broken fasteners.
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure points or chafing.
- Do not leave the horse unattended, especially in the box or pasture if there is a risk of getting caught.
- Do not make any unauthorized changes or repairs to the product.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before using the blanket again or storing it.
- Do not store or dry near open flames, heat sources or chemical substances.

Disposal information:

The product is made of fleece (polyester fiber) and is not biodegradable. The materials can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
