

GPSR Safety Certificate

Product name: Jumping saddle pad "Wellington"

Item number: SR10235 / SR10212

Intended use:

The product serves as padding between the horse's back and saddle to distribute pressure and increase comfort. It is intended for use with a suitable saddle.

Material information:

The saddle pad is made of polyester fabric with a mesh insert zone along the back line for ventilation. The filling consists of a thin layer of fleece (polyester fiber). The materials are of synthetic origin and contain no animal components.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use as a base between the horse's back and the saddle for its intended purpose.
- Check for damage before each use.
- Do not use if damaged or heavily worn.
- Improper storage can degrade the material.
- Do not use on wet horses - risk of chafing and heat build-up.
- Remove dirt and sweat residue regularly to avoid irritation to the horse's skin.
- Do not use chemical cleaning agents or bleach – damage to the material is possible.
- After washing, allow to dry completely before reusing or storing the saddle pad.
- Only use in combination with a suitable saddle and correctly adjusted harness to avoid pressure points.

Disposal information:

The product consists mainly of polyester fabric, mesh material (polyester) and a fleece filling made of synthetic fibers. The materials are not biodegradable. The saddle pad can be disposed of with household waste if there is no municipal collection for textile waste. A

material separation of materials is not necessary in the private sector. Do not burn or release into the environment or waterways. Separate and recycle packaging materials in accordance with local disposal regulations.
