

GPSR Safety Certificate

Product name: Underblanket 300g

Item number: SR10135

Intended use:

The underblanket serves as a warming intermediate layer under a horse blanket and helps regulate the horse's body temperature in cooler weather conditions. It is equipped with a filling of 300 g and is only intended for use in combination with a suitable outdoor or stable blanket. The product must not be used as a sole blanket outdoors, as a sweat blanket or as a rain blanket.

Material information:

The product is made of satin polyester fabric. Satin polyester is a satin weave synthetic material with a smooth, slightly shiny surface that offers low friction and a comfortable feel. The material is dimensionally stable, durable, easy to care for, insensitive to moisture and free of animal components.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a warming underblanket under a horse blanket.
- The underblanket may only be used in combination with a suitable outdoor or stable blanket.
- Do not use directly on open wounds, skin injuries or severely irritated skin areas.
- Before each use, check for damage, loose seams, tears or broken fasteners.
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure points or chafing.
- Do not leave the horse unattended, especially in the box or pasture if there is a risk of getting caught.
- Do not make any unauthorized changes or repairs to the product.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before using the blanket again or storing it.
- Do not store or dry near open flames, heat sources or chemical substances.

Disposal information:

The product is made of satin polyester fabric with synthetic filling and is non-biodegradable. The materials can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
