

GPSR Safety Certificate

Product name: Rain fly blanket 0g "Oslo"

Item number: SR10279

Intended use:

The product protects the horse from the elements and supports thermoregulation and comfort. It is intended exclusively for wearing on horseback.

Material information:

The product is made of ripstop polyester fabric and mesh material. Ripstop polyester is a synthetic fabric with woven reinforcement threads that offers high tear resistance and dimensional stability. The mesh material is also made of synthetic fibers and ensures good air circulation and breathability to prevent heat build-up. Both materials are durable, easy to care for and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as a horse blanket in the stable or outdoors.
- Before each use, check for damage (e.g. tears, defective seams, damaged fasteners, loose straps or eyelets).
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure or chafing.
- Do not use on open wounds or skin injuries on the horse.
- Use only on clean, dry horses.
- Do not use chemical cleaners or bleach - only clean according to the care label.
- After washing, allow blanket to dry completely before reuse or storage.
- Do not dry or store near open flames, heat sources or electrical devices.
- Do not use as a transport or underlay blanket if it is not intended for this purpose.
- Replace damaged or deformed fastening parts (e.g. carabiners, buckles) immediately.

Disposal information:

The product is made of ripstop polyester and mesh material, both of synthetic origin and non-biodegradable. The materials can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
