

GPSR Safety Certificate

Product name: Underblanket 50g "UltraDry" with fleece

Item number: SR10247

Intended use:

The stable blanket serves to protect and regulate the horse's temperature in the stable. It helps to maintain body temperature, keep dirt away and protect the horse from getting cold after training or washing. The blanket can also be used as an underblanket under an outdoor blanket or rain blanket to increase thermal protection. The product is intended exclusively for intended use on horses and may not be used as a transport blanket, sweat blanket or fixation device.

Material information:

The product is made of mesh fabric and fleece with a filling of 50g. The mesh fabric is made of synthetic fibers and ensures breathability and good air circulation to prevent heat build-up. The polyester fiber fleece material provides thermal insulation, softness and moisture wicking. The 50 g filling provides light thermal insulation and supports temperature balance. All materials are easy to clean, dimensionally stable and free of animal components.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for intended use on horses.
- Do not use directly on open wounds, skin injuries or severely irritated skin areas.
- Before each use, check for damage, loose seams, tears or broken fasteners.
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure points or chafing.
- Do not leave the horse unattended, especially in the box or pasture if there is a risk of getting caught.
- Do not make any unauthorized changes or repairs to the product.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before using the blanket again or storing it.
- Do not store or dry near open flames, heat sources or chemical substances.

Disposal information:

The product is made of mesh fabric, fleece and 50g synthetic filling. All materials are of synthetic origin and are not biodegradable. The blanket can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
