

GPSR Safety Certificate

Product name: 3in1 cooling blanket for horses "Cool Down".

Item number: SR10180

Intended use:

The cooling rug with neck cover and towel section is designed to cool down and support the regeneration of the horse after physical exertion or during high temperatures. It assists in temperature regulation and helps prevent muscle tension. The rug is intended solely for its designated use on horses and should only be applied for short periods according to the instructions for use. It must not be used as a conventional horse rug, transport rug, or turnout rug.

Material information:

The product is made of Lycra. Lycra is an elastic synthetic material composed of polyurethane fibers (elastane) known for its high stretchability, shape retention, and breathability. It provides a close fit, regulates moisture, and allows for good air circulation. The material is easy to care for, durable, and free from animal-derived components.

Security rating:

The product has been tested for safety, material quality, and workmanship. When used properly, there are no risks for consumers or animals. The product complies with the requirements of Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Use only for the intended purpose as a cooling rug for short-term application after exertion or in warm weather.
- The rug must only be used according to the instructions for use.
- Do not leave the rug on the horse permanently.
- Do not use in cold weather or on horses that are already chilled.
- Do not apply to open wounds, skin injuries, or irritated skin areas.
- Inspect the rug before each use for damage, loose seams, or tears.
- Do not continue to use the rug if damaged or heavily worn.
- Regularly check the fit to avoid pressure or chafing points.
- Do not make unauthorized modifications or repairs to the product.
- Allow the rug to dry completely after use and clean according to the care label.
- Do not use chemical cleaners, bleach, or solvents.
- Do not store or dry near open flames, heat sources, or chemical substances.

Disposal information:

The product is made of Lycra (elastane), a synthetic material that is not biodegradable. The rug can be disposed of with regular household waste unless a local textile collection system is available. Separation of materials is not required for private disposal. Do not burn product residues or release them into the environment or water bodies. Packaging materials must be disposed of separately in accordance with local waste regulations.
