

GPSR Safety Certificate

Product Name: Backpack (Waterproof Recycled Material)

Item number: SR10250

Intended use:

The backpack is used to safely transport and store personal items, riding utensils or accessories. It is intended for use in everyday life, in the stable or when traveling and offers organized and protected storage options. The product is intended exclusively for its intended use as a carrying bag and may not be used to transport animals, dangerous substances or as protective or safety equipment.

Material information:

The product is made of ripstop polyester fabric with a thread count of 1680 denier (1680D). Ripstop polyester is a synthetic high-performance material with woven reinforcement threads that is particularly tear-resistant, dimensionally stable and abrasion-resistant. The material is water-repellent, easy to care for, durable and free of animal ingredients.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use as a carry bag or storage container for its intended purpose.
- Do not overload - the maximum carrying weight according to the manufacturer's instructions must not be exceeded.
- Before each use, check for loose seams, broken zippers, tears or damaged straps.
- If the backpack is damaged or heavily worn, it must not be used.
- Do not use to transport animals, liquids, flammable materials or sharp objects.
- Do not store or use near open flames, heat sources or chemical substances.
- Do not make any unauthorized changes or repairs to the product.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before using the backpack again or storing it.
- Do not leave unattended within the reach of children.

Disposal information:

The product is made of ripstop polyester fabric (1680D) and is not biodegradable. The backpack can be disposed of with normal household waste, provided there is no municipal collection for textile or plastic waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
