GPSR Safety Certificate

Product name: Miami Classic fly blanket

Item: SR10281

Intended use:

The fly blanket is used to protect the horse from insects and flies while staying outdoors or in the stable. It provides coverage over the body to prevent stings and irritation without compromising air circulation. The product is intended exclusively for intended use on horses and must not be used as a rain blanket or cover at low temperatures.

Material information:

The product is made of polyester mesh fabric. Polyester is a synthetic material that is characterized by high tear resistance, dimensional stability and durability. The mesh structure ensures optimal ventilation and allows good air circulation to prevent heat build-up. The material is easy to care for, insensitive to moisture and free of animal components.

Security rating:

The product has been tested for safety, material quality and workmanship.

When used properly, there are no risks to consumers or animals.

The product meets the requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR).

Warnings:

- Only use for its intended purpose as an insect protection blanket on the horse.
- Before each use, check for damage, loose seams, tears or broken fasteners.
- If the blanket is damaged or heavily worn, it may not be used.
- Check the fit regularly to avoid pressure points or chafing.
- Do not leave the horse unattended, especially not in the pasture or stable if there is an increased risk of getting stuck.
- Do not make any unauthorized changes or repairs to the product.
- Use only on clean, dry horse.
- Do not use in the rain or as protection against wet conditions.
- Clean only according to care label - do not use chemical cleaners, bleach or solvents.
- After cleaning, allow to dry completely before using the blanket again or storing it.
- Do not store or dry near open flames, heat sources or chemical substances.

Disposal information:

The product is made of polyester mesh fabric and is not biodegradable. The materials can be disposed of with normal household waste if there is no municipal collection for textile waste. Material separation is not necessary in the private sector. Do not burn product residues and do not allow them to enter the environment or bodies of water. Packaging materials must be disposed of separately in accordance with local disposal regulations.
