GPSR Safety Certificate

Product name: Therapie Heizdecke "Merano"

Article number: SR10285

General product description:

The "Merano" therapy heating blanket is designed to provide targeted warmth to the horse's back muscles. It features three adjustable heat levels and an automatic heat program, allowing the intensity to be tailored to the specific needs of the animal. The blanket is powered by a durable rechargeable battery and is made from soft velour material, ensuring comfort during use. Double heating coils ensure even heat distribution, while secure chest and belly straps keep the blanket in place. The insulated back section prevents heat loss, and the product comes with a storage bag for safe keeping.

Intended use:

For targeted heat application to the back muscles of horses to support muscle relaxation, blood circulation, and regeneration. Only for use on horses and in accordance with the instructions for use.

Material:

Velour material

Essential safety characteristics:

- Soft velour material for comfortable contact with the horse's body
- Insulated back section to prevent heat loss
- Three individually adjustable heat levels and an automatic heat program
- Double heating coils for even heat distribution
- Secure chest and belly straps for stable positioning
- Battery operation for flexible use without a fixed power connection
- Supplied with a rechargeable battery and matching charging cable

Safety assessment:

The product has been subjected to a safety assessment in accordance with the requirements of Regulation (EU) 2023/988 on general product safety (GPSR).

The material composition, physical properties, construction, packaging, labeling, and intended use have been examined.

The materials used and the product design have been evaluated with regard to safety aspects relevant to the intended use.

When used properly, there are no health or physical risks for animals or users.

The product meets the fundamental safety and labeling requirements of EU Regulation (EU) 2023/988 (General Product Safety Regulation – GPSR) and is safe for its intended purpose.

Warnings:

- Check for damage (e.g., tears, defective heating wires, cables, or seams) before each use.
- Use only for its intended purpose on horses.
- Do not use on open wounds, skin irritations, or acute inflammations.
- Do not use as an underblanket, stable blanket, or for unattended continuous use.
- Do not use while riding or during uncontrolled movement of the horse.
- Do not carry out unauthorized repairs, modifications, or interventions on the electrical system.
- Use only the supplied battery and the designated charging cable.
- Do not open, pierce, or throw the battery into fire.
- Protect the battery from moisture, frost, and direct sunlight.
- The blanket must not be used on the horse during charging.
- Observe charging time and procedure as per instructions.
- Regularly check fit to avoid pressure points or chafing.
- Clean only according to the care label. Do not dry clean or machine wash unless explicitly permitted.
- Product contains electrical components and batteries. Do not dispose of with household waste.
- Remove batteries before disposal and dispose of them separately in accordance with battery regulations.
- Store the product in a cool, dry place when not in use.
- This product is not a medical device and does not replace veterinary treatment.
- Disconnect from the power supply before cleaning.
- Not suitable for humans.

Disposal information:

Remove the battery before disposal and dispose of it separately in accordance with applicable battery regulations. The product contains electrical components and must not be disposed of with household waste.
